

Recommended Draft Policy ARIN-2021-4

Clarifications to Sections 6.5.2.1, 8.3, 8.4 and 8.5.6

Alyssa Quinn, Advisory Council Shepherd

History

- Proposal - (ARIN-prop-299) - 17 August 2021
- Draft Policy - 24 August 2021
- Revised - 20 January 2022
- Recommended - 2 March 2022

Shepherds: Alyssa Quinn, Andrew Dul

https://www.arin.net/participate/policy/drafts/2021_4/

Problem Statement

- The current language in **Sections 6.5.2.1, 8.3 and 8.4** is not clear regarding ASN-only transactions as well as the term “number resources”. The current language in Section **8.5.6** is not clear with regard to additional IPv4 space.

Policy Statement

In section 6.5.2.1 g., replace:

”Partial returns of any IPv6 allocation that results in less than a /36 of holding are not permitted regardless of the ISP’s current or former **IPv4 number resource** holdings.”

with

”Partial returns of any IPv6 allocation that results in less than a /36 of holding are not permitted regardless of the ISP’s current or former **IPv4 address** holdings.”

Policy Statement

In section 8.3, replace:

“In addition to transfers under section 8.2, ***IPv4 number resources and ASNs*** may be transferred according to the following conditions.”

with

“In addition to transfers under section 8.2, ***IPv4 addresses or ASNs*** may be transferred according to the following conditions.”

Policy Statement

In section 8.3, replace:

“The source entity must be the current registered holder of the ***IPv4 address resources***, and not be involved in any dispute as to the status of those resources.”

with

“The source entity must be the current registered holder of the ***IPv4 addresses or ASNs*** and not be involved in any dispute as to the status of those resources.”

Policy Statement

In Section 8.4, replace:

“Inter-regional transfers of ***IPv4 number resources and ASNs*** may take place only via RIRs who agree to the transfer and share reciprocal, compatible needs-based policies.”

with

“Inter-regional transfers of ***IPv4 addresses or ASNs*** may take place only via RIRs who agree to the transfer and share reciprocal, compatible needs-based policies.”

Policy Statement

In Section 8.4, replace:

“The source entity must be the current rights holder of the ***IPv4 address resources*** recognized by the RIR responsible for the resources, and not be involved in any dispute as to the status of those resources.”

with

“The source entity must be the current rights holder of the ***IPv4 addresses or ASNs*** recognized by the RIR responsible for the resources, and not be involved in any dispute as to the status of those resources.”

Policy Statement

In Section 8.5.6, replace:

“Organizations with direct assignments or allocations from ARIN must have efficiently utilized at least 50% of their cumulative IPv4 address blocks in order to receive additional **IPv4 addresses**. This includes all space reassigned to their customers.”

with

“Organizations with direct assignments or allocations from ARIN must have efficiently utilized at least 50% of their cumulative IPv4 address blocks in order to receive additional **IPv4 space**. This includes all IPv4 space reassigned to their customers.”

Comments

- These changes were originally included in ARIN-edit-2021-1.
- Staff and Legal review of ARIN-edit-2021-1 on June 14, 2021 indicated that some changes were not editorial in nature.
- The editorial changes went forward in ARIN-edit-2021-1 and the non-editorial changes are included here.
- The original draft did not include the change to 6.5.2.1. This was added after the staff and legal review (~~IPv4 number resource holdings~~ **IPv4 address holdings.**)

Staff and Legal Review (1 February 2022)

Staff Understanding

ARIN-2021-4 encapsulates the non-editorial changes pointed out in ARIN-edit-2021-1. It offers clarifications to ASN-only transaction language, use of “number resources,” and resource type in Section 8.5.6.

If the intent is indeed to standardize “IPv4 addresses,” staff recommends changing “in order to receive additional IPv4 space” to read “in order to receive additional IPv4 addresses.” ***The AC shepherds may also wish to correct another instance of “IPv4 number,” in Section 6.5.2.1., bullet g.***

Additionally, staff suggests correcting the second change in 8.4 to read “***The source entity must be the current rights holder of the IPv4 addresses or ASNs...***” to align with other plural references to ASNs.

The Draft Policy text is clear and understandable.

Staff and Legal Review (1 February 2022)

Implementable as Written?: Yes

Impact on ARIN Registry Operations and Services:

None.

Legal Review:

No material legal issue.

Staff and Legal Review (1 February 2022)

Implementation Timeframe Estimate: 3 months

Implementation Requirements:

- Staff training
- Updates to public documentation
- Updates to internal procedures and guidelines
- Restricting waitlist space from use in these scenarios

Proposal/Draft Policy Text Assessed: 20 January 2022
